PUBLIC COMMENT

Andre L. Scott 561 Ardmore Blvd. – Mr. Scott is legislative assistant to State Representative Ed Gainey; on behalf of the Representative, he thanked Council for its work in seeking funds from Allegheny County for emergency demolition. Mr. Scott asked how the structures would be prioritized. Ms. Marcinko responded that 19 properties have been identified, with two of those constituting immediate threats to public safety. It will take several months to obtain the funding from the County. The Borough will utilize its own funds to demolish the two most dangerous structures. Ms. Marcinko, in collaboration with Borough Engineer Dave Gilliland, Code Enforcement Director Dan Freidson and Administrative Assistant Cindy Bahn, prioritized the remaining 17 structures, using several factors. This list will be submitted to the County.

CAPITAL PLANNING

(Ms. Garrett arrived at approximately 6:37 p.m.)

Mr. Shattuck referred to an updated report on the status of capital improvement projects which was distributed to Council members. He provided the following report:

- The Ferguson Playground Project has experienced some delays and the ribbon-cutting ceremony has been postponed. The project is now expected to be the middle of September.

(Mayor Thompson arrived at approximately 6:40 p.m.)

Ms. Marcinko reported on updates to the Capital Planning Projects spreadsheet:

- The final costs for the Police Department renovations were updated.
- Fencing at the DPW garage is complete, and the figure for the final cost has been updated. The project was completed under budget.
- A new scope of work is being prepared by the Borough Engineer for the salt storage building.
- The dump truck purchases will be for (2) 2.5 ton trucks as opposed to (1) 5-ton and (1) 2.5 ton truck. The final cost, which will be under budget, has been updated.
- Parking meter updates were budgeted for 2014, but a plan for this project has not been finalized.
- The Street Sign Replacement Project is in process and the project costs have been updated; these are also under budget. Ms. Macklin stated that she understood that all signs were to be replaced. Ms. Marcinko responded that the project was only to replace missing and unreadable signs.
- The figure for the Borough's local share for the Ferguson Park/Playground Project was updated. Total project costs are approximately \$175,000. An \$89,000 grant was received for the project. Ms. Marcinko noted that a funding source for the Borough's local share has not yet been identified. The \$40,000 for contracted maintenance costs included in the general fund budget have not been spent. The Parks Safety Improvement Project was completed; those costs, nearly \$60,000, were incurred in 2013. Ms. Macklin questioned whether Pittsburgh Urban Christian School contributed to the project. Ms. Marcinko stated that PUCS had pledged \$5,000 but does not believe those monies were received.
- Ms. Marcinko stated that final decisions have not been made on the following projects which were budgeted in 2014: tractor purchase, parking lots, decorative lighting, and relocation of Code Enforcement Offices. There is approximately \$84,000 remaining in the Capital Improvement fund. Mr. Shattuck commented that \$150,000 was budgeted for parks in 2013 which included \$90,000 for Ferguson Park and \$60,000 for maintenance. Mr. Shattuck stated that the Parks and Recreation Advisory Board recommends replacement of the trash receptacles in all parks and he requested input from Council. Ms. Moore questioned the cost of the containers.

(Mr. Taiani arrived at approximately 6:42 p.m.)

Mr. Taiani requested a description of the style of the receptacle and whether they would be mounted. Mr. Shattuck responded that they will be of the same style as those that are installed in the business district. The installation cost for each receptacle is \$105 and the cost of the receptacle is \$1187.93. It was estimated that

20 receptacles are needed in the parks, plus one at the Borough building and one at the Eastridge Branch Library. Ms. Macklin noted the need for water fountains in all Wilkesburg parks and requested this be included in the 2015 budget. Ms. Grannemann questioned whether there is money in the budget for this purpose. Mr. Shattuck stated that Hunter Park has a water feature and Ferguson Park/Playground will have a water fountain installed. The current priority is trash receptacles due to the unsightly and poor condition of the existing containers. Monies are available under the recreation contracted services line item. Remaining bond funds could be used for the Borough's local share of the Ferguson Playground Project. Ms. Macklin commented that she does not want to forego maintenance. Ms. Marcinko and Mr. Shattuck explained that the monies budgeted for maintenance were intended to be utilized for weekly, contracted maintenance of all parks, which did not occur in 2014. The Playground Safety Improvements Project was paid for out of the Capital Improvement Fund.

- Mr. Shattuck questioned whether analysis had been performed for a new bond issue. Ms. Marcinko stated this will be part of the 2015 budget process.
- It was the consensus of Council to proceed with the purchase of trash receptacles.

PUBLIC SAFETY

Mayor Thompson commented on concerns relating to the establishment of an eligibility list for hiring of police officers through the civil service process. He stated that he had a discussion with the solicitor to the Borough's Civil Service Commission who advised that the Borough can hire part-time police officers outside of the civil service process and suggested that the process be started. Ms. Macklin stated that she has been trying to get more police officers hired since 2010. Ms. Marcinko commented on the establishment of the current eligibility list, which was certified by the Civil Service Commission in January, 2014 and contained 4 candidates. From that list, two candidates were hired. The list is valid for one year. Ms. Macklin commented that she had thought that a new list could not be established at this time. She stated that monies have been budgeted since 2010 for the hiring of part-time officers. She stated that she understood that part-time officers could not be hired outside of the civil service process. She noted that under the terms of the collective bargaining agreement, part-time officers can be utilized for thirty-two hours per week. Ms. Marcinko stated that she will speak with the Solicitor to the Civil Service Commission to obtain clarification prior to proceeding. She does not believe that the hiring of part-time officers is permitted outside of the Civil Service process. Mayor Thompson stated that the collective bargaining agreement allows for the hiring of part-time patrol officers and establishes that they are eligible to take the civil service examination at the time of testing. Ms. Macklin referred to the Management Review contained in the Five-Year Plan and Financial Management Study from 2008 which contained a recommendation for the hiring of part-time police officers. Mayor Thompson stated that the collective bargaining agreement establishes a process for the scheduling of part-time officers. It was the consensus of Council to move forward with the hiring of part-time police officers.

Mayor Thompson provided the following report:

- The Police Department will be participating in rapid deployment activities with departments in other jurisdictions. Ms. McCarthy-Johnson questioned whether an officer has been identified to perform the safety inspections on trucks.
- The FBI would like to recognize the officers who were involved in the large drug bust which took place several months ago.
- Officers will be fitted for new vests and Tasers on September 22, 2014. Mr. Taiani questioned whether the vests would be worn internally or externally, and expressed concern that officers wearing external vests appear too militarized. The Mayor stated that the main objective is officer safety. Ms. Macklin questioned whether consideration has been given to the installation of in-car cameras. The Mayor stated that the Chief is exploring funding opportunities for same. Ms. Macklin questioned whether vest cameras are being considered. President McCarthy-Johnson stated that she would like the Borough to explore this further. Mr. Taiani suggested that officers become trained in the use of video cameras so cameras are not turned off during the arrest of an actor. Audio recording during an arrest was also mentioned. In response to a question from Ms. Trice, the Mayor responded that K-9 officers will also be fitted with vests.
- A thirty-one year old person who was reported missing was found in Las Vegas. The individual chose to move from the area.
- The Pittsburgh Symphony Orchestra will be performing on September 22, 2014, 8:00 p.m. at Deliverance Baptist Church. The theme is “How Music and Spirituality Relate”.
- Kentucky Fried Chicken will hold a Day of Giving in Wilkinsburg. They will be distributing 10,000 free dinners from their store on Penn Avenue in Wilkinsburg. Mayor Thompson is working with the store to secure meals for seniors and shut-ins. He requested Council’s help with distribution to those segments of the community. The event is planned for October 23, 2014 from 11:00-4:00 p.m.
- School Crossing Guards are needed and Mayor Thompson asked for Council’s help to get the word out. Ms. Macklin questioned how the pay rate compares to neighboring communities. Mr. Shattuck noted that Swissvale provides benefits for its guards. Ms. Macklin questioned whether the guards can be used for other functions outside of their regular crossing guard duties.
- The Department is in need of a vehicle for Parking Enforcement. Monies were budgeted in 2013.

She commented that an “X” is marked on the outside of the structure, indicating that the fire department will not enter the building. She questioned whether the Borough had spoken with Pittsburgh Bureau of Fire regarding structures with this designation. Ms. Marcinko stated that she had not spoken with PBF but has a list of the properties marked with an “X” which she received from the former Chief of the Wilksburg Fire Department. Ms. Trice requested a copy of that list and stated that greater priority should be given to those structures which are marked. Ms. Marcinko commented that this was discussed and the likelihood of fire at the structure in question is relatively low as there is no electric service, and a missing floor discourages trespassers. The prioritized list will be submitted to Council once it is received from the Borough Engineer.
